WORK EXPERIENCE

Full Stack Developer
Sberbank

 August 2022 – Ongoing   Moscow, Russia

 Inner site and api-backend for "groups of related borrowers"
 Using: ReactJS, MaterialUI, OpenShift, Istio, Java, Spring, Postgres
+ project clients are top-top managers
+ cheerful friendly team
+ using popular development frameworks
− old macbooks with tracking program on it and without admin rights. vpn disallows open many sites
− multiple layers of security networks, hard to release a release, several same stands for testing with different names
− hard to find inner info, people between teams communicate with email

C++ Backend Junior Developer
Yandex Go

 July 2021 – August 2022   Moscow, Russia

 Backend for microservices related to taxi drivers: achievements, rewards, moscow departament of transport synchronization and more
 Using: C++, Userver, Gtest, Pytest, Elastic, Kibana, Postgres, Mongodb
+ a lot of skillful people, who are easy to talk with
+ offices are even better than Google's
+ clear career path
+ company culture. yandex people resembles a family
− hard deadlines. tasks are done in a hurry. it can lead to many mistakes, if task executor somehow is not attentive
− salary is below the market
− work is so interesing, it is even hard to do smth besides
− Many specific technologies, developed and used only in yandex

SCHOOL ACHIEVEMENTS

🏆 **Final prizewinner of the All - Russian Olympiad of schoolchildren in physics 2018**
entered top 25

🏆 **Final prizewinner of the All - Russian Olympiad of schoolchildren in physics 2019**
