Summary

Frontend / Fullstack developer with commercial experience at Yandex, Sberbank, and product teams. Focused on React, TypeScript, and product web interfaces, with additional backend experience in Java and Rust that helps in working with APIs, integrations, and business logic.

Work Experience

Present
Sep 2024

Yandex — Frontend Developer

- Migrated the project from yarn to pnpm, reducing CI execution time by 2–3x
- Implemented product experiments in the Yandex Plus payment flow: an upsell block on the main payment screen increased sales by 1%, and onboarding on the success screen improved user engagement by 5%
- Stack: TypeScript, React, Next.js, XState, Redux, Testplane, Playwright, Storybook, Node.js

Sep 2024
Feb 2024

Arenadata (Picodata) — Rust Developer

- Wrote and optimized Ansible scripts for application deployment
- Migrated autotests from Lua to Rust, improving execution time by 10% and unifying development around a single language
- Stack: Rust, Tarantool, Kafka, Lua, Ansible

Jan 2024
Dec 2023

GraviLink — Fullstack Developer

- Delivered MVP for software used to manage industrial delivery drones
- Optimized Docker Compose setup and Docker layer caching, reducing project startup time by 1.5x
- Stack: Docker, Rust, WebAssembly

Sep 2023
Aug 2022

Sberbank — Fullstack Developer

- Migrated UI autotests from Selenium to Selenide, reducing new test implementation time from about one day to 30 minutes
- Optimized frontend-backend pagination, introduced bulk API endpoints, and analyzed SQL queries, which sped up loading of some pages by 10x
- Stack: React, Material UI, Java, Spring, PostgreSQL, Selenium, Selenide

Aug 2022
Jul 2021

Yandex Go — C++ Backend Junior Developer

- Implemented caching and bulk API endpoints, increasing maximum RPS capacity by 10x without significantly reducing data freshness
- Migrated databases for new business entities and added driver achievement progress tracking; according to analytics, this increased visits to the achievements tab by 45%
- Stack: C++, userver, PostgreSQL, MongoDB, Elastic, Kibana

Skills

Frontend	React, TypeScript, JavaScript, Next.js, Redux, XState, Material UI, Storybook, Node.js
